

Project Name: Conestogo Wind Energy Centre

Project Location: Mapleton Township, Wellington County, Ontario

Dated at Mapleton Township this the 13 of June, 2012

Conestogo Wind, LP is planning to engage in a renewable energy project for which a Renewable Energy Approval (REA) was issued by the Ministry of the Environment on December 8, 2011. The Project, called the Conestogo Wind Energy Centre, is located in Mapleton Township, Wellington County, Ontario. The Project will consist of 10 wind turbine generators, step-up transformers, electrical collector lines, a 44kV overhead electrical distribution line, a transformer substation, turbine access roads and construction staging areas.

Commencement of Construction-Related Activities:

Initial land clearing and grading activities for the substation and laydown area as described in the REA documents are scheduled to begin work as early as July 2, 2012 between 14th Line and 16th Line on Sideroad 17, see Figure 1. Work will also begin on a new distribution line connecting the substation and the interconnection point at the intersection of Sideroad 18 and Highway 6. All activities will be undertaken in accordance with Township of Mapleton by-laws to minimize noise disturbance to the local community. Roads, turbine foundations, and underground collection system work will begin soon after and turbines will arrive starting in late October. The project will be operational as early as late November.

Ongoing Communication:

NextEra Energy Canada, ULC is committed to maintaining communication with local stakeholders and community members. Township of Mapleton and Wellington County staff and elected council, regulatory agencies, local residents and Aboriginal communities will be notified of Project activities through newspaper advertisements, mailings to the above-mentioned parties, and notices posted on the Project's website, www.NextEraEnergyCanada.com/projects/conestogo.shtml.

NextEra Energy Canada, ULC has developed a communication protocol which includes procedures for responding to and addressing comments and complaints. The protocol also requires NextEra to notify the Ministry of the Environment should a complaint occur.

A Community Liaison Committee has been established and notices regarding upcoming meetings can be found on the Project website noted above.
