

Summerhaven Wind Energy Center

About NextEra Energy Canada

- » A leading renewable energy developer in Canada
- » A subsidiary of NextEra Energy Resources, LLC, the largest generator of wind energy in North America.
- » Focused on developing electricity derived from clean, renewable sources throughout the provinces.
- » Headquartered in Toronto, Ontario
- » Current operating wind energy centers located in Alberta, Nova Scotia and Quebec
- » Visit us at www.NextEraEnergyResources.com

How a wind turbine works

- 1 A computer turns the nacelle and the rotor (which consists of three blades and a hub) to face into the wind. The turbine blades turn a generator to produce electricity. For safety purposes, the turbine shuts down automatically if the wind speed exceeds 55 miles per hour.
- 2 The electricity travels down the inside of the tower through electrical cables to a transformer at the base of the wind tower.
- 3 From the transformer, the electricity flows through an underground collection cable to an on-site substation.
- 4 From the substation, overhead electrical cables take the electricity to an off-site substation and into high-voltage transmission lines.
- 5 The electricity goes from the high-voltage transmission lines into local distribution lines.
- 6 The electricity is then distributed to homes, schools, businesses and other consumers.

Overview

- » Located in Haldimand County, Ontario
- » Operated by a subsidiary of NextEra Energy Canada
- » A 124.4-megawatt wind generation plant that is capable of generating enough electricity to power nearly 32,200 homes
- » Fifty-six 2.22-megawatt wind turbines
- » Each turbine is approximately 80 meters tall from the ground to the hub in the center of the blades
- » Commercial operation began in 2013

Benefits

- » Provides employment opportunities
- » Adds tax base to the county
- » Delivers landowner lease payments
- » Creates no air or water pollution
- » Uses no water in power generation
- » Allows land to remain in agricultural use
- » Supports economy through purchases of regional goods and services

Project totals for NextEra Energy Resources, and its affiliates, include those in which NextEra Energy Partners holds a minority interest.
